Reda NEGGAOUI

Looking for an apprenticeship in electronics and computer science starting September 2026

TECHNICAL AND IT SKILLS

Projects

- **Games developed in Python**

Skills: Python, Tkinter, WebSockets, asyncio, multithreading, JSON, network programming

- **Line-following robot and controlled by sound**

Skills: Arduino, C/C++, mobile robotics, sensors, PCB design, embedded systems, navigation algorithms, maintenance (Ishikawa method)

- **Fire alarm system**

Skills: C, Arduino, CAN/ADC, analog sensors, embedded systems, decision logic, SQLite, Microsoft Office

- **Electrical cabinet with PLC for a freight elevator**

Skills: industrial automation, Ladder logic, Grafcet, Siemens, Schneider Electric, electrical panel wiring, electrical engineering, Microsoft Office

- **Sumo robot**

Skills: Arduino, C/C++, autonomous robotics, telemetry, power electronics, DC-DC converters, motor control, embedded algorithms

- **Raspberry Pi server for hosting and playing games (Gamehub)**

Skills: Python, client-server architecture, WebSockets, Linux deployment (Raspberry Pi), web server configuration (Nginx), Python application packaging (PyInstaller), HTML/CSS, asset management (audio and image files), remote administration (VNC), Linux terminal usage and local network management

- **Digital business card with QR code (Eiffage Construction)**

Skills: web development (HTML, CSS), responsive web interface design, QR code generation and integration, creation and use of vCard (.vcf) files for automatic contact saving, website deployment

- **Electrical cabinet assembly + HMI interface for a production line**

Skills: industrial electrical panel assembly and wiring, integration of Beckhoff PLCs, HMI interface development, supervision of an automated production line, commissioning and equipment testing

WORK EXPERIENCE

- **Internship at Eiffage Énergie Systèmes – Studies and Commissioning Technician (Security Systems)**

Saint-Denis, France
March 2026 – June 2026 (14 weeks)

- **Internship at Eiffage Construction – IT Support Technician (Housing Improvement Division)**

Le Plessis - Robinson, France
January 2025 – March 2025 (10 weeks)
